

# Fund Accounting curriculum

## Introduction

The investment fund industry landscape has gone through significant changes over the past years. This is due to continuous changes and evolutions in the investors and distributors expectations. But this is also the result of the adoption of technological disruptors.

In close collaboration with PwC's subject matter experts, PwC's Academy has developed a multi-layered training curriculum for junior and more experienced fund industry employees and managers, who seek to gain further knowledge, allowing them to grow and get familiar with the topic/anticipate future trends.

This new curriculum more specifically focuses on the Fund Accounting roles through 2 different learning paths:

- UCITS Fund Accounting curriculum
- AIF Fund Accounting curriculum

## Your reasons why

Acquire new skills and competencies related to this industry

Gain deeper and more insightful information

Navigate and understand the regulatory framework

Identify opportunities to improve internal organisational processes

Obtain a sufficient level of factual consideration to make informed business decisions

Navigate the complex landscape of funds' industry governance and compliance

*PwC's Academy*

## Description

Our pedagogic approach embraces an extensive learning universe, offering participants the flexibility to blend digital and live formats for an optimal and personalised learning experience.

To answer your questions and training needs at different stages of your career, our UCITS and AIFs fund accounting curriculums are structured around 2 levels: Foundation and Knowledge & Competence.

Made of complementary and modular building blocks, our curriculum will help you identify the best learning solution for you and your teams.

They are proposed as comprehensive training programmes, but individual training modules can also be selected as standalone courses to meet specific needs. The Academy can help you create a customised pathway to align with your objectives.

## Objectives

By the end of this curriculum, participants will:

- Understand Luxembourg's investment funds market characteristics for both UCITS and AIFs.
- Familiarise with laws, regulations, CSSF Circular letters, standards, and best practices governing the Luxembourg's investment funds sector.
- Acquire knowledge of specific financial products within the investment funds market.
- Gain in-depth knowledge of accounting standards, including key technical elements, issues, and treatments.
- Gain insights into risk management, governance, and compliance within the investment funds sector.
- Familiarise with ESG and other reporting requirements relevant to investment funds.
- Identify current and future challenges influencing market transformation within the investment funds sector.
